

The circle graph below shows how our water resources are distributed throughout the world.

1. Convert percentages to decimals and fractions. Write fractions in simplest form.

Regions	Percentage	Decimal	Fraction
North America			
South America			
Europe			
Africa			
Asia			
Central America & Caribbean			

2. List all regions whose share is larger than  $\frac{1}{5}$  of the total.

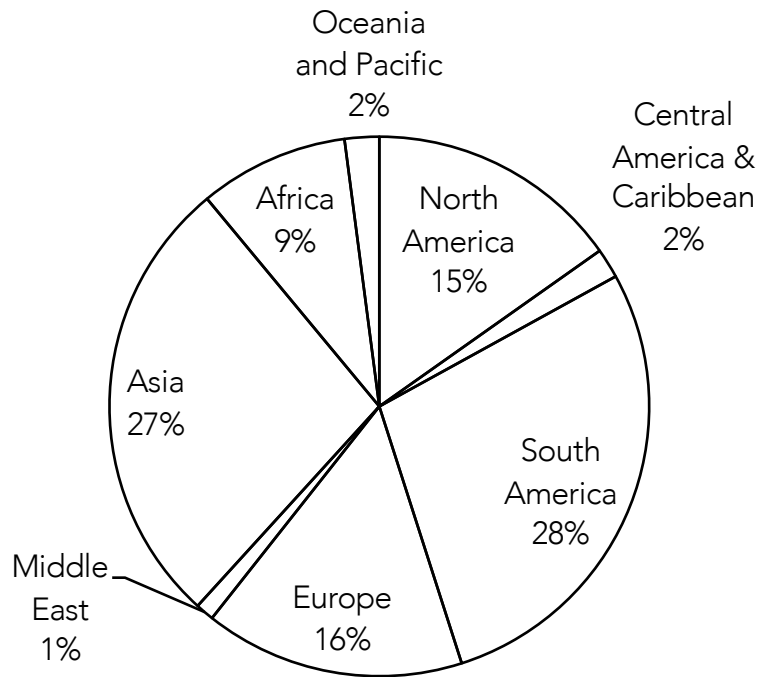

3. When water resources in South America, Europe, and Middle East are combined, which of the following is equivalent to the portion?

- A. 0.3      B.  $\frac{2}{5}$       C. 45%      D.  $\frac{3}{10}$

# Answer Key

The circle graph below shows how our water resources are distributed throughout the world.

1. Convert percentages to decimals and fractions. Write fractions in simplest form.

Regions	Percentage	Decimal	Fraction
North America	15%	0.15	3/20
South America	28%	0.28	7/25
Europe	16%	0.16	4/25
Africa	9%	0.09	9/100
Asia	17%	0.17	17/100
Central America & Caribbean	2%	0.02	1/50

2. List all regions whose share is larger than  $\frac{1}{5}$  of the total.

**South America and Asia**

3. When water resources in South America, Europe, and Middle East are combined, which of the following is equivalent to the portion?

- A. 0.3      B.  $\frac{2}{5}$       C. 45%      D.  $\frac{3}{10}$
