

Most activities in your house create a gas called carbon dioxide (CO₂) that makes Earth warmer. The figure below (Figure A) shows how much CO₂ each activity creates in a week.

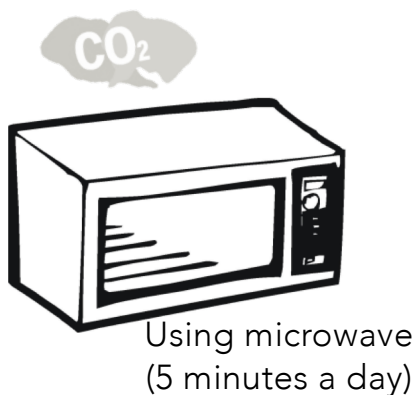

[Figure A]

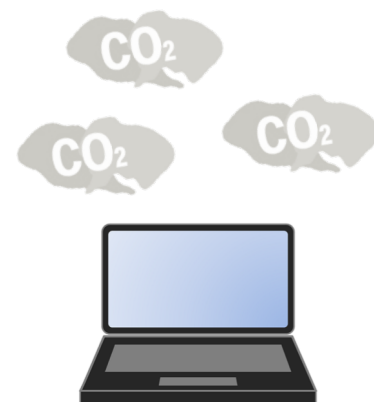

Washing clothes
(every 2 days)

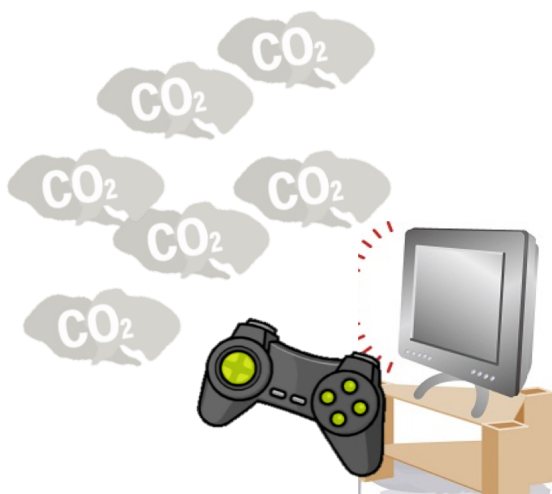

Watching TV
(2 hours a day)

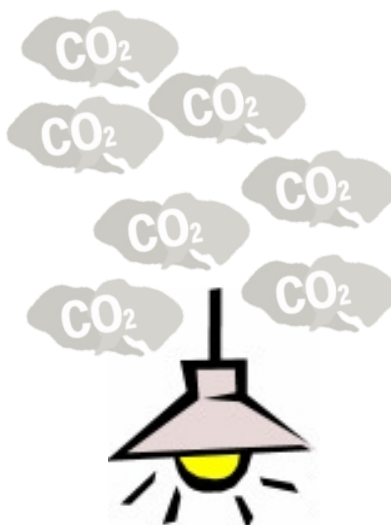

Using microwave
(5 minutes a day)

Using a computer
(1 hour a day)

Playing video games
(2 hour a day)

Lighting a room
(5 hours a day)

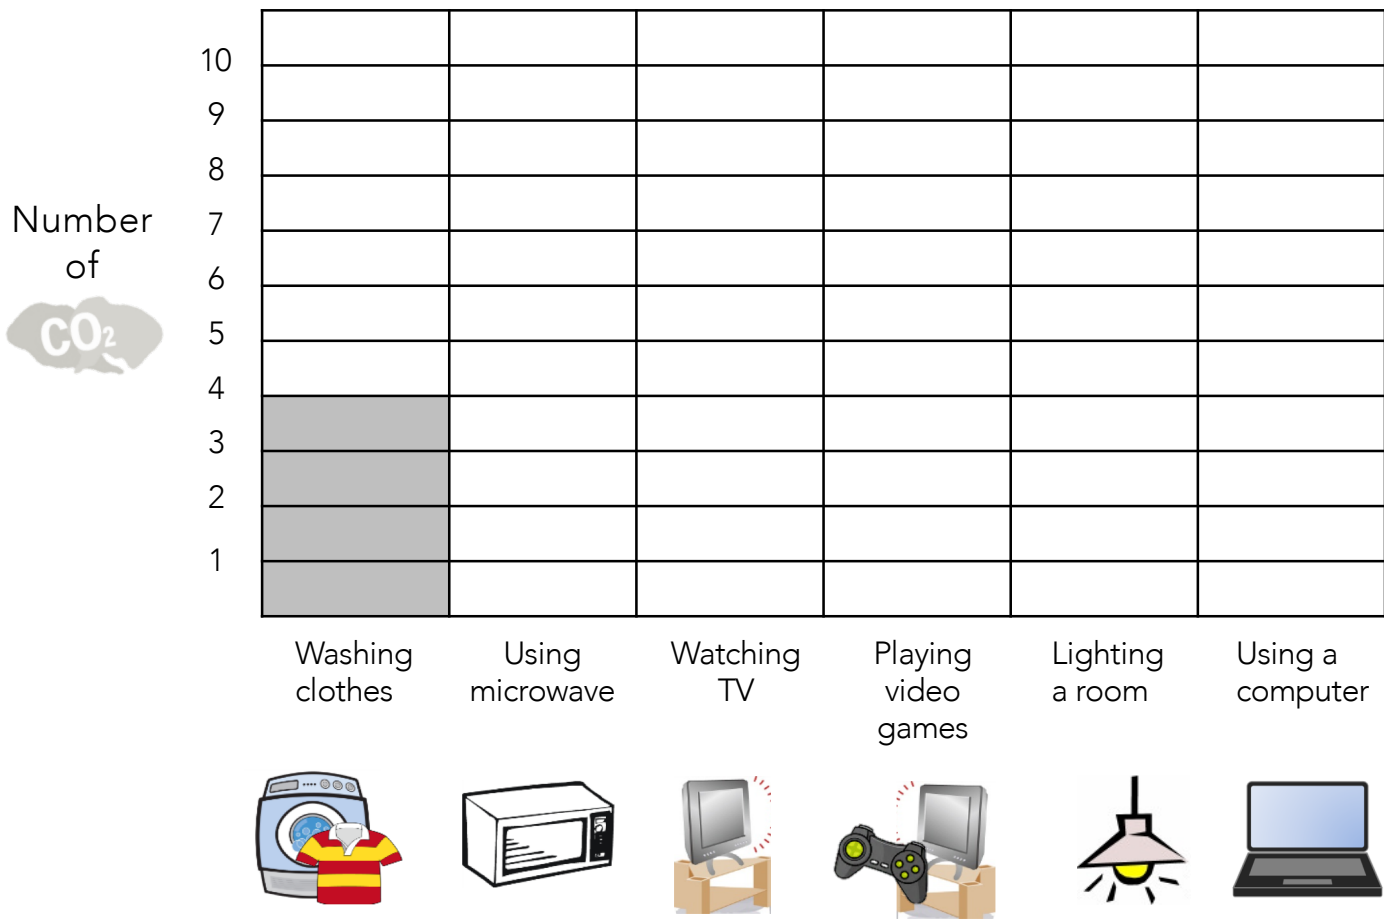

CO₂ = 1 pounds of CO₂

PROBLEM-2

WHAT MAKES HARMFUL GAS?

Bar graphs
(up to 10)

- ❖ Make a bar graph to represent the information in figure A. The first one is done for you.

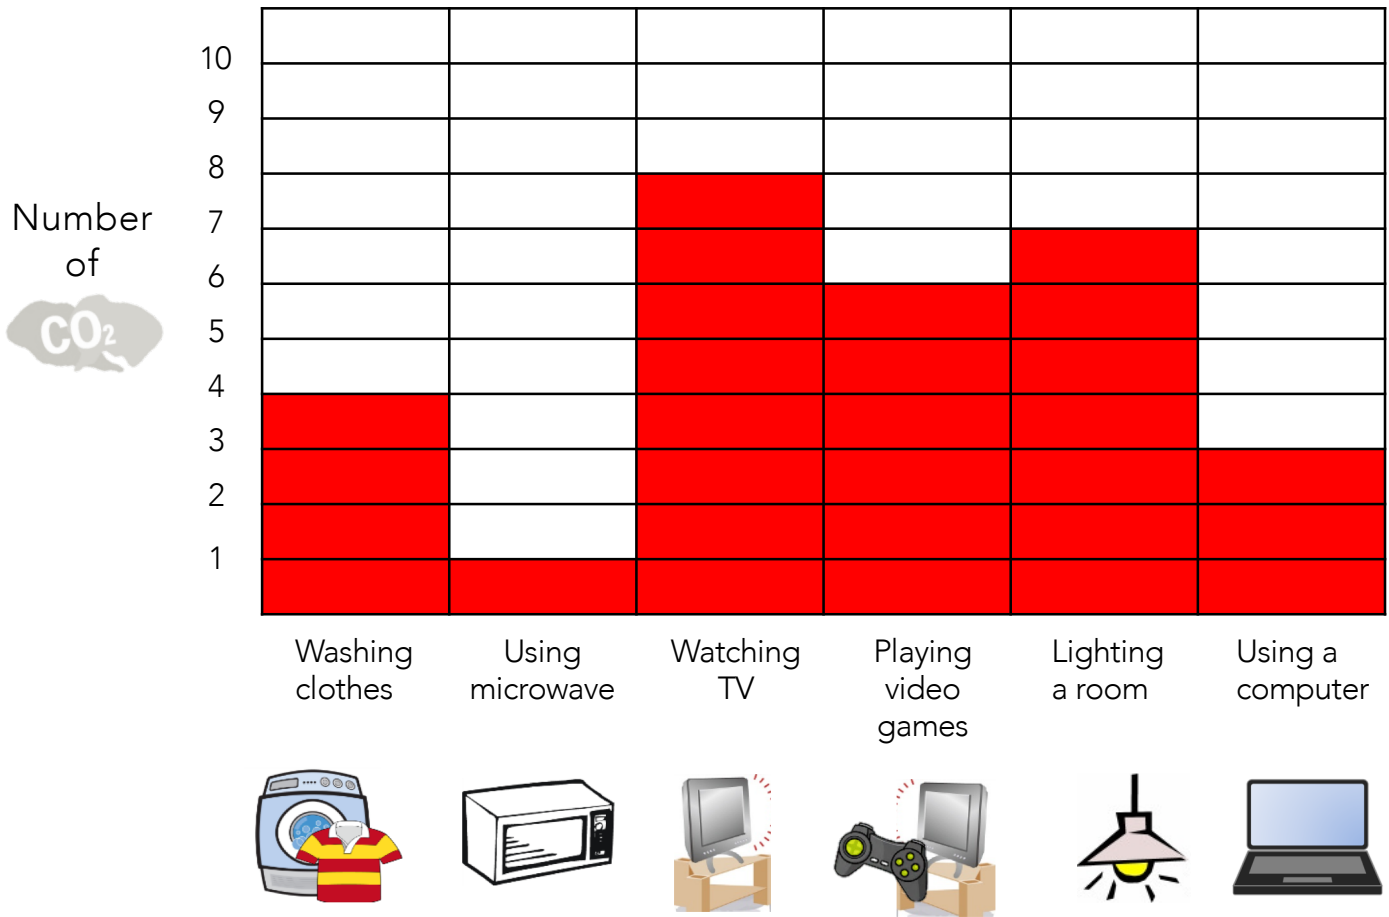

- ❖ Write the activities in order starting with the one that creates the most CO₂ in your house.

1 _____
 2 _____
 3 _____

4 _____
 5 _____
 6 _____

Answer Key

- ❖ Make a bar graph to represent the information in figure A. The first one is done for you.

- ❖ Write the activities in order starting with the one that creates the most CO₂ in your house.

1 Watching TV

2 Lighting a room

3 Playing video games

4 Washing clothes

5 Using a computer

6 Using a microwave
