1. In which state did you need to pay the most for electricity to play video games?
2. In which state did you need to pay more for electricity to play video games, New York or California?
3. In which state did you need to pay less for electricity to play video games, Indiana or Kentucky?
4. Use $<$, $>$ or $=$ to show to complete a true statement about the two decimal numbers.

Alaska

Kansas

Indiana

Louisiana

Kentucky

Michigan

California

Wisconsin

Answer Key

The table below shows electricity costs for playing video games for 5 hours in 10 states in April 2020.

Alaska	22.3
California	20.5
Indiana	12.6
Kentucky	11.1
Wisconsin	14.9
Michigan	16.1
Connecticut	23.5
Louisiana	9.3
Kansas	13.0
New York	17.3

1. In which state did you need to pay the most for electricity to play video games?

Connecticut

2. In which state did you need to pay more for electricity to play video games, New York or California?

California

3. In which state did you need to pay less for electricity to play video games, Indiana or Kentucky?

Kentucky

4. Use < , > or = to show to complete a true statement about the two decimal numbers.

Alaska

Kansas

Indiana

Louisiana

Kentucky

Michigan

California

Wisconsin
