

The circle graph below shows the countries that used the largest amount of energy in the world in 2019.

Energy consumption by countries, 2019

1. What country used the most energy in the world?
2. The United States used the \_\_\_\_\_ most energy in the world.  
Ordinal number
3. Use  $<$ ,  $>$  or  $=$  to show which country used more energy.

For example,

China

United States

United States

Russia

Japan

China

Canada

India

Japan

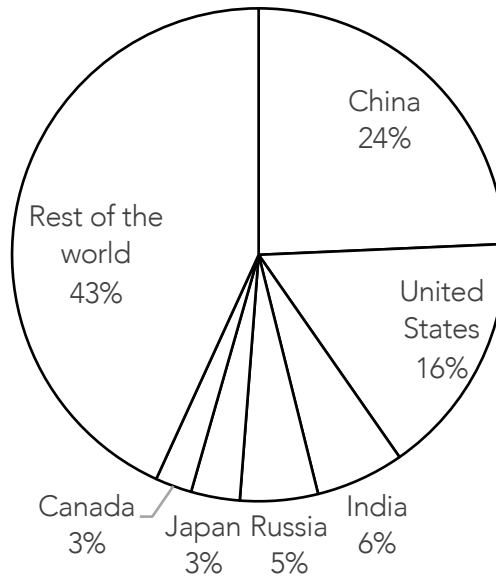

United States

## Answer Key

The circle graph below shows the countries that used the largest amount of energy in the world in 2019.

Energy consumption by countries, 2019

1. What country used the most energy in the world?

China

2. The United States used the \_\_\_\_\_ most energy in the world.

2nd

Ordinal number

3. Use  $<$ ,  $>$  or  $=$  to show which country used more energy.

For example,

China

United States

United States

Russia

Japan

China

Canada

India

Japan

United States
