The bar graph below shows how many unhealthy days for children Posey County had over the last 8 years.

Number of unhealthy days for children in Posey County

Number of
unhealthy
days
for children

Year

1. In what year did the children in Posey County have the largest number of unhealthy days?

2. In what two years did the children in Posey County have the smallest number of unhealthy days?

3. Use < , > or = to show which year had more unhealthy days.

For example,   2012   (>)   2013
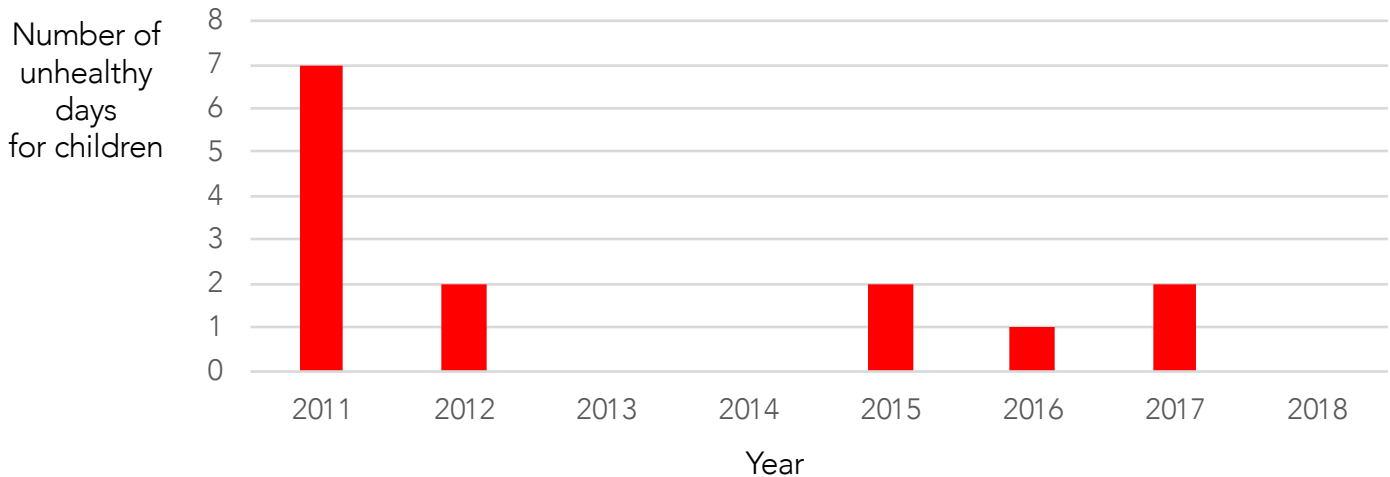

2011   (   )   2017

2016   (   )   2014

2018   (   )   2015

4. What is the difference between the largest number and the smallest number?

5. How many less unhealthy days did year 2015 have than the year 2011?

The bar graph below shows how many unhealthy days for children Posey County had over the last 8 years.

Number of unhealthy days for children in Posey County

Number of unhealthy days for children

Year

1. In what year did the children in Posey County have the largest number of unhealthy days?

   2011

2. In what three years did the children in Posey County have the smallest number of unhealthy days?

   2013, 2014, and 2018

3. Use < , > or = to show which year had more unhealthy days.

   For example,   2012 (>) 2013

   2011 (>) 2017

   2016 (>) 2014

   2018 (<) 2015

4. What is the difference between the largest number and the smallest number?

   7 – 0 = 7

5. How many less unhealthy days did year 2015 have than the year 2011?

   7 – 2 = 5 (days)
